PRICE ONE CENT.

FLAMBEAU

A 30-to-I Shot Started the Sport on the Hill Track.

THE SECOND A FINE RACE

In a Brilliant Finish Frances S. Beat Lizzie by a Nose.

[SPECIAL TO THE EVENING WORLD.]
GUTTENBURG RACE TRACE, Jan. 10.—Racegoers were given a taste of genuine Spring
weather at Guttenburg to-day, and a large crowd of lovers of the sport came from New disagreeat le under foot.

The track was in prime condition, and the Erst race was run in fast time by the poor lot

Steve Jerome was made a hot favorite for the first race, and certainly his past two races showed that he ought to be the best of the lot Flambeau, a 30 to 1, shot got off badly and won that idea.

by a length in fast time. Right benind came Marry B. Blackburn and Blanche he ds spart, is undoubtedly the finest tobacco in the making a very pretty finish for the place. Of the latter three Blackburn was the only one backed to any extent. Mutuel machines rewarded the backer of the winner generously, only one ticket being sold.

Ben Harrison was a roaring favorite for the second race, and the talent played him as Objection was second choice in the opening, but the press of money on Pearl Set, together with the former's dislike to anything over five

Ben Harrison got considerably the worst of the send off, but went through his field and anded a winner in great style. Pearl Set beat Dojection a neck for the place. The time,

WHAT WE CHEW AND SMOKE. An Expert's Description of the Con

tents of a Cigar and a Plug. Joseph H. Bisbie, revenue collector of North Carolina, says the Chicago Tribune, at one time was a tobacco manufacturer, knows a good cigar when he sees it, and what he says about the weed is not at all pleasant information to the smoker.

"Do you know what a cigar contains! said Mr. Bisbie, as he took his memorandum book from his pocket and read the following:

"Valeric, acetic, butyric, formic, proprionic, prussic and carbolic acids, creosote, ammonia, sulphureted hydrogen, pyridene, virtdine, picoline and rubidine.

"Isn't that enough to make a man stop smoking !" said the collector. "All those acids are found in a pure cigar. What then must be found in the adulterated article Connoisseurs imagine the little freckles that pitted against him. He finished a disgraceful are frequently seen on cigars indicate a superior quality of leaf. I want to dispel

"The pure natural leaf in its yellow hue market. But so many accidents conspire to render the finest leaves scarce that even the natural leaf is imitated. Coarse leaves are bleached by the use of chlorine to the equally upon all. yellow color of the natural leaf, and surphuric acid properly diluted will produce the little freckles you so often see. So, don't ever be misled by the freckled cigar.

"But the men who chew are in even more forlongs, caused Pearl Set to be second choice danger of being poisoned than those who smoke. The real nice plug, with the pretty pieces of the on it, which looks so inviting, is soaked with all kinds of vile stuff. I know of a factory where New England rum is used to sprinkle the tobacco used to make plug; another where amaica rum is put on to flavor it, and also another where the rankest kind of corn whiskey is used.

The third race furnished another red-hot favorite in Lizzle; that is, she was a book-makers tavorite, they be leving that she was a book-makers tavorite, they be leving that she was a book-makers tavorite, they be leving that she was a use claen.

The tallent, however, were divided on Wood-chiter and Frances S, and they argued that it. Izzle's last race showed that she was going back in form.

Some played Woodcuiter and others Frances S, principally because Taylor was up. These i wo carried a deal of money, and Frances S, won by a nose after a brilliant inshem, with Lizzle second and Cascade third.

Selling; beaten horses; five eighths of a mile.

Central Park Lakes to Be Kept Open Another Hour at Night,

"The Evening World's" Successful Appeal to Park Officials.

Moment of the Fleeting Season.

I know that THE EVENING WORLD is run in the I know that THE EVENING WORLD is run in the interests of the people. Can you not use your influence to have the lakes in Central Park kept open until 11 o'clock in the evening?

Ten o'clock, the present closing hour, is too early. There are pleuty of people who could go skating at 9 or 10 o'clock in the evening, but who cannot go sarlier on account of business. I am one. Urge this matter in your paper. It's in the interest of the working class.

79 Kast One Hundred and Ninth street.

Upon receipt of the foregoing letter reporters of THE EVENING WORLD were sent at once to present the facts to President Gallup, of the Board of Park Commissioners; Supt. Parsons, of Central Park, and Ca.t. Beattle, of the Park police, and urge upon them the propriety of acceding to the wish of the public. The result of these interviews has been in the highest legree satisfactory, and THE EVENING WORLD s enabled to announce that during the skating season the lakes will be kept open till 11 o'clock

President Gallup promptly said he could see no reason why skatting in the Park should not be allowed until 11 o'clock for the accom-

"The extra hour will cost us \$50 nightly for the overtime of employees. That's all the extra expense it will involve, and we can afford that. "I will order the lakes to be kept open to-night until II o'clock, and in the mean time I till confer with Sunt. Parsons, of Central Park, to find out if there are any reasons why we should not cont use to allow the stating until that bour as long as the ice lasts."

Supt. Parsons said to the reporter that he saw no reason way the hour of closing could not be made 11 o'clock as well as 10 o'clock, except the fact that the Park police are obliged to stay nine hours on the ice, and it was hard to arrange the details so the work would fall

Mr. Parsons consulted with Capt. Beattle who seemed of the same opinion; but after taking into consideration the fact that the lakes have not been open for skuling for two of very short duration, they decided to agree dent Gallup's plan to keep the lakes open till 11 o'clock to-night, as an experiment; and if successful the hour of closing will be kept at il o'clock throughout the scason.

It is evident that the cit zens of New York. both young and old, are at present more interested in skating than in any other form of popular amusement. Since the red ball was holsted up two day

ago, and the news was spread abroad that th ice upon the lakes in Central Park was stroenough to bear the crowds of merry-make that would be sure to turn out at the very fir opportunity, it has been the all-important as all-absorting topic of the hour. And well it might be, for it is now more to

three years since the people of Gotham ha Winter sport, and it is natural that the should enter a very vigorous protest again any official rules and regulations which m ing away at a cigar that from its odor was simply execuable, and the hotel clerk will curtail their enjoyment of this rare pleasure swear he saw the South Carolinian take a Skating in New York City is a luxury whi generous chew from a huge plug half an hour before he told what it contained.

The Week in Wall Street Ends in a Blaze of Glory.

Happy Skaters Can Improve Every Bulls Get Mastery of the Field and Prices Boom.

> Sugar Trust Leads the Upward Movement with a General Rise Along the Line.

The stock market closed in a perfect blazof glory. The bolis for the first time in months had complete mastery of the field and sent the

"shorts" flying in all directions.
They had the advantage to-day of large buy ing orders from London, Boston, Philadelphia and Chicago, and a number of favorable circomstances to a sist them in the work of put ting up prices.

The great bull card is, of course, the meeting of railroad presidents at the Windsor. In add tion to this the important announcement was made that \$3,000,000 Clearing House certificates had been cancelled to-day, leaving acted. only \$6,365,000 outstanding, against over

\$15,090,000 early in December last. Last but not least came the bank statement, with its enormous increase in surplus reserve. The upward movement in prices was led by Sugar Trust Certificates, which on heavy purchases jumped 5% points to 71%.

The rise was due to the reported action of the

The Great Sloux Revolt.

The Sugar Trust Turned Over to the Central Trust Company.

Gen. Slocum, Deacon White and H. O. Havemeyer Discharged.

Apparent Compromise Between Hostile Interests in the Suit.

Judge Pratt, or Brooklyn Supreme Court, to-day confirmed a compromise between al parties in the great Sugar Trust suit, He discharged the three receivers who were

rpointed a month ago. These receivers were Gen. Henry W Socum, Deacon S. V. White and Henry O. H vemeyer.

By the new order entered the Central Trust Company, of 54 Wall street, this city, is made eceiver and party defendant in the suit against Havemeyer. The Central Trust Company represent 98 1-10 of the shareholders of the Sugar Trust

nd acts for them in the matter. The motion made in Court this morning was very friendly, and it was evident that the bowlle | arties had reached an agreement. Ellin Boot, John R. Parsons, Gen. Wingste Mr. Shepherd and several other lawyers fo and against the Trust appeared in court and indersed the petition on watch Judge Pratt

bonds in \$1,000,000 for the due execution of it

Besides discharging the old receivers and turning the property over to the Central Trust Company, Judge Pract dissolved the in-teriocutory judgment made Nov. 15.

Following is Judge Pratt's opinion in full: the Central Trust Company that that institu tion may become a party to this suit; the can Cotton Oil prefered 4, to 40; Canadian Pa the interlocutory judement and order ap-Edison General Ricetric 4, to 90; National Lin- aside and the property left to be disposed of

"When the receivers were appointed in this Rio Grande Western 2, to 30, and Rio Grande matter, there was only a small majority of the stock, so far as I recollect, that had taken The banks this wook gain \$3,706,000 in cash any steps towards a reorganization of the and \$4,807,125 in surplus reserve. The latt r business. No plan of reorganization at that now stands at \$13,384,280. The banks gained time had been agreed upon, and since that both from Treasury operations and the interior date it appears from this retition that about 9 per cent. of the certificate-holders have agreed upon organization, or have formed a plan of corganization, and they desire that the propounces of Silver and 6,000 barrels of Pennsyl- erty shall be turned over and the receivers dis-

"It does not appear that any certificate holders object to this proceeding, and it does not appear that there is any creditor to make any objection, and it being conceded upon all were the owners of the property, it seems to ne that where 98 per cent, of the owners of the property express a desire to manage in themselves they should have the opportunity. " At the time the receivers were appointed ody of the trustees in west was known as the

"They were under no duty except to retain the property. Their duties were not defined, and at that time they had in a suit asked to turn the property over to account and to be

"It appears they are properly before me in this motion; that the trustees have fully actheir hands as trustees; and upon all these facts, together with the consents which have been filed representing all parties to the soit. see no other course open to the Court except
